

## **A Message from the City of Saginaw**

The City of Saginaw is operating in a state of readiness, collecting information, providing updates, and otherwise are on-call to address any issues. We will reevaluate in the coming days as things can change or be modified.

The emergency declarations from President Trump, Governor Abbott, and the recent declaration made by Tarrant County Judge Glen Whitley have emphasized the need for people to stay aware, stay informed and to stay at home if at all possible. We are encouraging people to make the best personal decisions possible for themselves and their families and stay at home if at all possible, based upon the latest guidance from Federal, State, and County agencies and officials.

Out of an abundance of caution during this coronavirus/COVID-19 pandemic, Saginaw officials have decided to close City facilities and public playground equipment to the public, effective Friday, March 20, 2020. The closure will be in effect through April 3, 2020 in accordance with the City's disaster declaration. At that time the situation will be re-evaluated.

In addition to the existing closure of the Public Library, Recreation Center, and Senior Center, the decision will also include City Hall, Municipal Court, Animal Services & Adoption Center, Police Department Lobby, all Fire Station lobbies, and the lobby of the Public Works Operations and Maintenance Building. A skeleton crew of City of Saginaw employees will still be working at the facilities during the closure.

To protect our citizens, employees, and overall public health, we encourage our customers to use the online options at [www.saginawtx.org](http://www.saginawtx.org) for all water utility transactions. If you have questions or need assistance please call 817-232-4640.
